# INTERNATIONAL SCHOOL OF CREATIVE SCIENCE

The International School of Creative Science, Nad Al Sheba, was founded with a deep-seeded passion to create a unique institution that imparts academic excellence by providing modern curriculum learning, highly attentive tutoring, and superior facilities - all within an unparalleled environment that fosters traditional values and develops well-rounded youth. ISCS offers the National curriculum of England and Wales, combined with the UAE National education in Arabic language, Islamic and Social Studies, and provides a unique Quran memorisation programme.

Our course delivery methodology is based on world-class teaching strategies and best practices, with the aim to assist students discover and maintain interest, to realise their full potential. We strive to ensure the total development of the student through “purposeful play” strategies in the Foundation Stage, to help them build self-confidence and awareness, to enabling independent learning and enabling a firm foundation of knowledge, skills, and understanding in the core curricula of Language Arts, Mathematics, Social Studies, and Science, through enriched cross-curricula that also integrate Art, PE and ICT.

ISCS Nad Al Sheba welcomes prospective parents and students from all nationalities. Our target is to provide a unique education through fostering creativity and critical thinking skills. Our mission is to effectively instil traditional moral values, whilst ensuring excellence through an integrated curriculum based upon internationally renowned best practices in teaching and learning.

We are fortunate to be able to draw on two decades of educational knowledge and expertise from our sister schools, ISCS Muwaileh and ASCS Maliha.

## WHY ISCS?

Islamic Values that Elevate Knowledge

Promoting Creativity and Innovation

Global Educational Philosophy

Nurturing Leaders of Tomorrow

Personalized Learning Programs

Passport to Universities Worldwide

### Academic Facilities

- Libraries
- ICT lab
- Kitchen lab
- Science labs

- Digital visualisers
- ActiVotes & ActiExpressions
- Fully equipped learning resource center

### Additional Facilities

- Canteen
- Medical clinics
- Sensory room
- Outdoor culture room
- ELP room
- Creative garden

Mr. Ataullah Parkar

## Principal's Message

It is my pleasure, on behalf of our students, staff and community, to welcome you to the International School of Creative Science, located in Nad Al Sheba 3. We are at the heart of a growing community, drawing admissions from across Dubai and Sharjah because of our focus on academic excellence rooted in faith. This brochure intends to introduce you to our school, a safe and inspiring learning environment, helping your children realise their potential.

At ISCS Nad Al Sheba, we believe that nurturing holistic communities is the purpose of education. This means helping students achieve academic excellence driven by virtuous dispositions, and a strong moral compass. Our aspiration therefore, is to enable learners to have the passion for seeking knowledge, to care about the world, and be able to define solutions to make their impact in it. Our curriculum provides the skills and attitudes to do this. We provide a unique blend of the UK National curriculum and UAE curriculum, woven together through the values of our school's vision and mission.

Curriculum skills therefore, are always linked to real-life experiences, innovation, faith and UAE culture. The Qur'an programme ensures students develop a love for recitation and memorisation, promoting the importance of oral literacy in the region. Our passion for language enables students to develop a proficiency and passion for English and Arabic, kindling the mission of the UAE to secure Arabic as a language of the future.

We expect very high standards of work and behaviour from all of our students. We do this by enabling learners to take ownership of their progress, and setting personalised targets for their growth. We strive for excellence in teaching practices, consistently across the school, where students are constantly in the challenge zone to expand their knowledge. The after-school programme, trips, and pastoral programmes, all ensure that students develop a passion for activities, which they can pursue outside of school and later in life.

If you are thinking of joining ISCS Nad Al Sheba, know that you are joining a community of families, with the same vision for their children. Our community is an essential part of our school, it helps us improve and grow, and contribute through the delivery of key initiatives like the Rights Respecting Council, Emirati Steering Group, and Parent Workshops. Collectively, we join hands in building a future for our students, in Dubai, and the United Arab Emirates at large.

We look forward to you visiting our school community and hope you are as inspired as we are to nurture our future.

# How to Apply

Admissions to the International School of Creative Science will be conducted on a first come first served basis, in a fair manner. Admission will also be based on entrance tests for each year, and key stage level. Prospective students for year 3 and above will also be required to undertake a CAT4, Cognitive Ability Test, on a published date and time.

## Admission procedures for new students

- Complete the application form online or at the school.
- Submit a copy of the student's passport, copy of each parent's Emirates ID and most recent school report or (to whom it may concern) letter from the student's current school.
- Upon receipt of the application form, students will be invited for an entrance exam or interview. Students of FS 1 and FS 2 will be invited to school with their parents for an interview.
- Students of Years 1 to 12 will be invited for a computerised examination & interview.

The Registration department, along with the Senior Leadership Team, will test and evaluate applications made throughout the year, on a case by case basis. Admissions will be based upon availability in the year group, school/term reports, and entrance/CAT4 Cognitive Ability Test results. All other registration and administrative requirements remain the same, as for other year groups.

If your application is successful and the student is offered a place, you will be notified by phone or email and be invited to complete the rest of the admission formalities.
